Statement (handwritten, transcribed)

I was nearby on 2024-02-20 when this happened. What I saw: Red-light runner struck driver side at approx. 45 mph. Third-party at fault confirmed by HPD. Afterwards I could see damage to the Honda — full driver-side structural compromise, all airbags, frame bent. I gave my number to the driver in case it was needed.

Attestation

The above statement is true to the best of my recollection.
